

# JEEVA A

## SOFTWARE TEST ENGINEER

+91-63822 95714 | [jeevaayyappan13@gmail.com](mailto:jeevaayyappan13@gmail.com) | Gangatharan Colony, S.T.Mary's Road, Mandaveli, Chennai –28

### MISSION

Dedicated and skilled Software Testing professional with 4.5 years of extensive experience, including 1.5 years in Manual Testing and 3 years in Automation Testing with Selenium. Seeking a challenging position to contribute my expertise in ensuring the delivery of high-quality software products.

### WORK SUMMARY | AUTOMATION TESTING

- 3 years of hands-on experience in Automation Testing, specializing in Selenium
- Good experience in Java programming and oops structures.
- Good experience in Oracle/MySQL DB Management.
- Having good experience in automation frameworks such as Cucumber BDD, TestNG, Junit, POM, and Data-Driven frameworks.
- Experience in Build Automation tools like Maven and Continuous Integration Tools like Jenkins.
- Hands-on experience in tracking and reporting defects using the Defect Tracking tool – JIRA.
- Thorough knowledge of test case designing using various test case designing techniques and writing test cases.
- Also, possesses a good understanding of unit testing using Junit and TestNG Frameworks.
- Good knowledge in API with Postman and REST Assured frameworks.
- Involved in ceremonies like Daily Scrum call, Sprint planning, Sprint review, and Retrospective.
- Involved in delivery reports like Daily Status Reports, Weekly Status Reports, and execution dashboards.
- Good knowledge in version control using GIT to ensure efficient codemanagement and version tracking.
- Hands-on experience in implementing Agile principles.

### WORK SUMMARY | MANUAL TESTING

- Having dedicated 1.5 years to honing my skills in Manual Testing.
- Proficient in Agile methodologies (Scrum, Kanban etc.).
- Proficient in JIRA for project management, task tracking and prioritization.
- Knowledge in JMeter for performance testing and load testing of web applications.
- Performed testing like Smoke, Sanity and Regression.
- Proficient in SDLC, STLC & Bug life Cycle.

### WORKING EXPERIANCE

- **TISKAA SOLUTIONS PRIVATE LIMITED**
- Software Test Engineer
- March 2019 - Till Date

### EDUCATIONAL QUALIFICATION

- I Have Completed B.SC ( Computer Science ) in Hindustan College of Arts and Science, Coimbatore – 2019.

### TECHNICAL SKILLS

- Windows
- Manual Testing, API,
- Automation Testing
- Selenium WebDriver
- Cucumber BDD, TestNG
- POM, Data Driven, Junit
- Postman, REST Assured
- JIRA
- Eclipse
- Maven
- Jenkins
- Oracle
- Java

### PERSONAL DEATILS

- **Name** : Jeeva A
- **Date of birth** : 20/04/1998
- **Father's name** : Ayyappan A
- **Marital status** : Unmarried
- **Languages Known** : English, Tamil
- **Nationality** : Indian

### PROJECT: 03 ( LEGAL SERVICES )

Java-Selenium, Maven, Cucumber, TestNG, GIT

**June 2022 - Till date**

#### KING & SPALDING

- King & Spalding is a prominent international law firm headquartered in Atlanta, Georgia, USA.
- The firm has a history dating back grown to become one of the largest law firms in the world, with offices in various cities across the United States, Europe, Asia, the Middle East, and South America.
- King & Spalding has built a strong reputation for its high-quality legal representation, client-focused approach, and successful track record in complex and high-stakes cases.

### PROJECT: 02 ( E-COMMERCE )

Java-Selenium, Maven, Cucumber, TestNG, GIT, Jenkins

**Sep 2020 - May 2022**

#### ENTERTAINMENT EARTH

- Entertainment Earth is an online retailer specializing in pop culture collectibles, toys, action figures, and merchandise related to movies, TV shows, comics, and other forms of entertainment.
- They offer a wide range of products from various popular franchises, including Star Wars, Marvel, DC Comics, Harry Potter, Disney, and many more.
- Entertainment Earth has both a retail and a wholesale division, as well as an affiliate program. Its print catalog is produced quarterly.

### PROJECT: 01 ( AGRICULTURE )

Agile, GIT, JIRA

**March 2019 - Aug 2020**

#### ADM

- Archer Daniels Midland (ADM) Company is one of the largest agricultural processors in the world.
- Serving as a vital link between farmers and consumers, we take crops and process them to make food ingredients, animal feed ingredients, renewable fuels and naturally derived alternatives to industrial chemicals.
- Because everything ADM does begins with agriculture, our partnership with the farming community is vital.
- Farmers are essential to the overall economy, and that's why we work to be essential to them - creating thousands of products from their crops, hundreds of markets for their crops.

## RESPONSIBILITIES | AUTOMATION TESTING

- Design, develop, and maintain test automation frameworks using Java, Selenium, and Cucumber.
- Write automated tests to cover functional, integration, and regression testing, and integrate them into the build process using Maven and Jenkins.
- Plan and execute test plans and test cases based on functional and non-functional requirements.
- Analyze and report on test results and metrics to identify trends and areas for improvement.
- Coordinate and manage testing activities across multiple teams and stakeholders.
- Participate in release planning and provide input on testing timelines and risks.
- Troubleshoot and resolve defects identified through testing and collaborate with developers to ensure timely resolution.
- Participate in code reviews to identify potential defects and improve overall software quality.
- Continuously improve testing processes and practices to ensure maximum efficiency and effectiveness in software testing.

## RESPONSIBILITIES | MANUAL TESTING

- Work closely with the development team to understand the requirements and create test cases based on the user stories and acceptance criteria.
- Execute manual and automated test cases for new features and regression testing.
- Report, track and verify defects and issues using Jira.
- Participate in daily stand-up meetings and provide status updates on testing progress.
- Collaborate with product owners and stakeholders to ensure the software meets the desired quality standards.
- Maintain and update test documentation including test plans, test cases, and test scripts.
- Provide feedback on design and user experience improvements.
- Participate in sprint planning, estimation, and retrospective meetings.
- Analyze testing metrics and provide reports on test coverage, test execution results, and defects.
- Mentor junior members of the testing team and provide training on testing methodologies and tools.
- Contribute to continuous improvement initiatives to improve the software development process.
- Stay up-to-date with emerging testing methodologies, tools, and technologies.
