

NAME- SHANI KUMAR PATEL  
EMAIL: [patelshani733@gmail.com](mailto:patelshani733@gmail.com)  
MOBILE: +91-8357875895

## EXPERIENCE SUMMARY:

- **Having 1+ years** of experience in development of Server side Programming by using all Dart(flutter) Python(Django) API and related technologies.
- Hands on experience in application development using **Dart ( Flutter, Firebase,Offline Storage ,Api).**
- Experience in **Hybird and Native** ( cross-platform applications for Android, iOS, Linux, macOS by using a single uniform codebase) application development using **Flutter UI Tool Kit and Method channel.**
- Having awareness **Flutter .Method channel . Firebase .Offline Storage. Apis . Google Map . JSON.**
- Extensive Experience in using MVC (Model View Controller) and MVVM (Model-View-ViewModel)architecture for developing applications using **Flutter (Getx, Provider, Block).**
- Experience in web application development using open source MVC implementations like Flutter UI Tool Kit open source framework.
- Expertise in Object-Oriented Programming/ Development skill.
- Worked on databases like **Sqlite & Hive & Oracle .**
- Excellent Communication and Organizational skills with zeal to learn new technologies.
- Having excellent analytical, communication and monitoring skills. Quick Lerner and flexible to work of different kinds of API's and technologies.

## EDUCATIONAL QUALIFICATION:

- **Bachelor of Technology** from Bhabha University Bhopal in 2022.
- **Diploma** from Govt. Polytechnic College Sheopur (M.P.) in 2018.

## WORK EXPERIENCE:

- **Software Developer as Cyber Flax Private Limited** Started from January 2021 to Till Date.

## CERTIFICATIONS:

- SSI : **PROGRAMMING IN Dart,python**

## TECHNICAL SKILLS:

SKILLS	EXPERIENCED	AWARENESS
<b>Programming Languages</b>	Dart,Python	
<b>Web Technologies</b>	HTML	CSS
<b>Frameworks</b>	Flutter(Getx, Provider, Block), Django(Rest Apis)	
<b>IDE</b>	Android Studio and VS Code, IDLE	Github

## PROJECT SUMMARY:

### Project 1: Egyan

**Team Size:** 2

**Environment:** sdk:'>=2.18.2 <3.0.0', hive: ^2.2.3,http: ^0.13.5, google\_maps\_flutter: ^2.2.3, flutter\_phone\_direct\_caller: ^2.1.1, razorpay\_flutter: ^1.3.4, qr\_code\_scanner: ^1.0.1etc,

**Tools:** Android Studio , VSCode.

**Role:** Software Developer

**Responsibilities:**

- Understanding the requirements and business of the application.
- Developed persistence, Service and Controller layer.
- Implemented persistence mechanism using flutter.
- Apis Intigrate using python(Django).
- Involved in code enhancement, defect fixing.

**Project Description:**

Egyan is designed for School, to cover a wide range of School and management processes. It is an integrated end-to-end School Management that provides relevant information across the School to support effective decision making for Student care, Student and critical financial accounting, in a seamless flow. This project is designed in such a way that it can be used by single School or group of multiple School. There are different types of user can create in the system and assign particular role for the system.

### Project 2: Kouzina

**Team Size:** 2

**Environment:** sdk:'>=2.18.2 <3.0.0', sqflite: ^2.2.8+4, flutter\_session\_manager: ^1.0.2, razorpay\_flutter: ^1.3.4, provider: ^6.0.4, http: ^0.13.5

**Tools:** Android Studio, VS Code

**Role:** Software Developer

**Responsibilities:**

- Understanding the requirements and business of the application.
- Developed Service and persistence layer and Controller.
- Implemented persistence mechanism using Flutter.
- Involved in code enhancement.

**Project Description:**

Kouzina is designed for Restaurants , to cover a wide range of Restaurants and management processes. It is an integrated end-to-end Restaurants Management that provides relevant information across the Restaurants to support effective decision making for Customer care, Customer and critical financial accounting, in a seamless flow. This project is designed in such a way that it can be used by Restaurants . There are different types of user can create in the system and assign particular role for the system.
