PROJECTS

• Hospital Management System :-

- Technologies Used : Python, Django, HTML, CSS, JavaScript , MySQL
- The hospital management Django project is a user-friendly web application that helps beginners manage patients, doctors, rooms, and payments in a healthcare facility. It allows you to easily add, edit, and view patient, doctor, and room information. You can also handle payments and update payment records. The project includes a simple login and signup feature for secure access. It organizes patient records, doctor details, and room availability, making administrative tasks and resource management easier. The application has a simple interface that lets you effortlessly add, edit, and view records. It ensures data security through built-in authentication and encryption. Overall, the project is designed to simplify hospital management for beginners in a straightforward way.

• Library Management :-

- Technologies Used : PHP, HTML, CSS, MySQL, JavaScript
- Developed a library management system using HTML, CSS, and JavaScript for the front-end, and MySQL and PHP for the back-end. Library Management System is designed to manage the movement of books and maintain records of user in a library. This project focuses on possibility of search for books by title, author, or by book name. By using the web application books can be downloaded in PDF format. As a database manager, I was responsible for designing and implementing the database schema and performing database management tasks, such as data backup and recovery, database optimization, and security.

SKILLS

Python

Java

Django

Django REST

REST API

Git

AWS S3

AWS EC2

Linux Bash

MySQL

NumPy

Pandas

Swagger API

Matplotlib

HTML

CSS

Flask

SQLAlchemy

VS Code

Postman

PyCharm

Pytest, Unittest

Django ORM

CERTIFICATES & TRAININGS

- Python Full Stack + Data Science
(09/2022 - 03/2023)

SoftTech Software Training Institute , Pune

- Member of Computer Council Student Association at BMIT

- Won the Certificate in "TECHNICAL QUIZ" arranged at BMIT

- Won the Certificate in "Career Fest Quiz" arranged by AMITY University

- Attended 20 Days Workshop On "Website Development Using WORDPRESS" Arranged by BMIT
