- English [Fluent]

PROJECTS

VAN SALES APPLICATION

GO LANG NODE.JS EXPRESS.JS MYSQL REACT.JS ANTD AXIOS

- As a skilled full-stack developer, I played a key role in developing a high-performance van sales application
- I was primarily responsible for developing the admin panel, encompassing both the front-end and back-end aspects of the application
- I utilized React and the antd framework to design UI components and integrated APIs on the front-end.
- I implemented proper error handling and efficient database querying, utilizing advanced SQL row queries and transaction entries

E-LEARNING PLATFORM

NODE.JS MONGODB EXPRESS.JS

- I have significantly contributed to an e-learning platform that serves multiple functions and supports three types of users: students, parents, and teachers.
- I have managed the AWS server, which handles the video classes uploaded by teachers. I gained a thorough understanding of AWS and its capabilities
- Integrated a payment gateway, allowing users to purchase courses seamlessly.

RESTAURANT APPLICATION ADMIN PANEL

REACT.JS REDUX REACTSTRAP BOOTSRAP

- As a full-stack developer, I played a key role in developing a restaurant application's admin panel.
- Worked on the reports section of the application.
- I implemented pagination for all reports using React Table, which improved the application's user experience.
- Used Redux for state management, which improved the application's scalability and maintainability
- Utilized Reactstrap library based on Bootstrap to save development time and effort

ART MARKET WEBSITE

NODE.JS EXPRESS.JS MONGODB

- Arts works and drawing publishing platform
- Artist can showcase their drawings to users
- Images are uploaded to AWS S3 bucket
- Integrated Nodemailer API for automated mails
