Projects Undertaken

Project Title	Gift Shop Management System
Technologies	PHP, HTML, Javascript,CSS
Description	<p>“Gift shop management system” is one of the core areas for a gift shop business. Usually, it is pursued to manage the home delivery details and user details many more for a specific period of time. Admin and user are the two main divisions of the gift shop.</p> <p>Gift ordering manages the sales activity in a gift shop for each day and its calculations.</p> <p>Furthermore, this project is useful for both the users and the admin as it consumes less amount of time when compared to manual paper work through this automated system.</p> <p>Human effort or manual labor can also be reduced drastically and the major operations that are done manually can be done within a matter of seconds.</p>
